Fig. 6

Fig. 4

A hand-drawn schematic diagram of a rectangular frame assembly. The diagram shows a central rectangular area divided into three horizontal sections by two dashed lines. The top section is labeled 61a, the middle section is labeled 61b, and the bottom section is labeled 61c. The left vertical boundary is labeled 112, and the right vertical boundary is labeled 113. The top horizontal boundary is labeled 119, and the bottom horizontal boundary is labeled 114. The left vertical boundary is further divided into three segments labeled 62, 65, and 117a. The right vertical boundary is further divided into three segments labeled 153, 117b, and 114. The top horizontal boundary is further divided into three segments labeled 63, 119, and 152. The bottom horizontal boundary is further divided into three segments labeled 115a, 64, and 115b. The left vertical boundary is further divided into three segments labeled 118a, 117a, and 115a. The right vertical boundary is further divided into three segments labeled 118b, 117b, and 115b. The central area is labeled 61. The diagram includes various dashed and solid lines representing boundaries and internal divisions.

Fig. 11

A hand-drawn schematic diagram of a rectangular frame assembly, likely for a display or enclosure. The diagram shows a central rectangular area defined by dashed lines, surrounded by a frame. Key components and labels include:

- 61**: A bracket indicating the top edge of the frame.
- 62**: A bracket indicating the left edge of the frame.
- 63**: A bracket indicating the top edge of the frame, near the center.
- 64**: A bracket indicating the bottom edge of the frame.
- 65**: A bracket indicating the left edge of the frame, near the bottom.
- 66**: A bracket indicating the right edge of the frame.
- 117a**: A bracket indicating the left edge of the frame, near the top.
- 117b**: A bracket indicating the right edge of the frame, near the top.
- 118a**: A bracket indicating the top edge of the frame, near the left corner.
- 118b**: A bracket indicating the top edge of the frame, near the right corner.
- 119**: A bracket indicating the top edge of the frame, near the center.
- 152**: A bracket indicating the top edge of the frame, near the right corner.
- 153**: A bracket indicating the right edge of the frame, near the top.
- 113**: A bracket indicating the right edge of the frame, near the center.
- 115a**: A bracket indicating the left edge of the frame, near the bottom.
- 115b**: A bracket indicating the right edge of the frame, near the bottom.
- 114**: A bracket indicating the right edge of the frame, near the bottom.
- 190a**: A bracket indicating the left edge of the frame, near the bottom.
- 190b**: A bracket indicating the right edge of the frame, near the bottom.
- 200a**: A bracket indicating the bottom edge of the frame, near the left corner.
- 200b**: A bracket indicating the bottom edge of the frame, near the right corner.
- 90a**: A bracket indicating the bottom edge of the frame, near the center.
- 90b**: A bracket indicating the bottom edge of the frame, near the right corner.
- 91a**: A bracket indicating the bottom edge of the frame, near the left corner.
- 91b**: A bracket indicating the bottom edge of the frame, near the right corner.
- 94a**: A bracket indicating the left edge of the frame, near the bottom.
- 94b**: A bracket indicating the right edge of the frame, near the bottom.
- 94c**: A bracket indicating the bottom edge of the frame, near the center.
- 93**: A bracket indicating the bottom edge of the frame, near the center.
- 201**: A bracket indicating the right edge of the frame, near the top.
